SUMMARY

I am a MERN stack developer who enjoys building practical and user-friendly web applications. I have worked with MongoDB, Express, React, and Node to create full-stack projects and REST APIs. I am comfortable connecting frontend and backend, handling databases, and improving application performance. I am looking for an opportunity to grow and contribute to real-world development work.

EDUCATION

BE in Computer Engineering

Savitribai Phule Pune University, Pune, Maharashtra

Graduating Pursuing (Expected 2027)

7.5 CGPA

Adsul Technical Campus, Chas, Ahmednagar

Relevant coursework: Web Development, Database Management, Software Engineering, Computer Networks

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript (ES6+), TypeScript, SQL

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), Problem Solving, Time & Space Complexity

Frontend: React.js, Redux, Context API, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Database: MongoDB, MySQL, Mongoose, SQL Queries, Joins, Indexing, Database Design

Tools: Git, GitHub, Postman, npm, VS Code

Software Engineering Concepts: MVC Architecture, Authentication & Authorization, API Integration, Debugging, Basic System Design, Agile Methodology

CERTIFICATIONS

UpGrad Learning Support Center, Pune: Full Stack Development Trainee

Feb 2025 – Aug 2025

- Built full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Developed RESTful APIs with Node.js and Express.js and performed CRUD operations using MongoDB.
- Designed responsive user interfaces using React.js and integrated them with backend services.
- Implemented authentication and authorization using JWT.
- Used Git for version control and npm for project management and dependency handling.

ACADEMIC PROJECTS

Online Course Management System

Jan 2025 – Aug 2025

MERN-based full-stack web application for managing courses and users.

- Developed scalable RESTful APIs using Node.js and Express.js to manage courses, users, and enrollments.
- Built responsive and dynamic user interfaces using React.js with proper state management.
- Implemented secure authentication and role-based authorization using JWT.
- Designed MongoDB schemas and performed CRUD operations for efficient data handling.

ACTIVITIES

Online Learner and Project Contributor

Aug 2024 – Present

Continuous learning in Java, Web Development, and MERN technologies.

- Completed certifications and self-learning projects.
- Applied learned concepts to academic and personal projects.

LANGUAGES

Language Proficiency

Effective communication skills in multiple languages.

- English – Professional Working Proficiency
- Hindi – Fluent
